**ADVANTAGES**

- Accessories for CB 260 Cable Box
- Max. outer diameter 26 cm
- Tidy and long-lasting solution
- Organised and structured cable unwinding
- Quick changing of rollers or wires
- Versatile stacking and modular extendable

**BESCHREIBUNG**

The CB 260 roller is the perfect accessory for the CB 260 Cable Box and offers an ideal solution for the tidy and space-saving storage of single wires, wires and cables that fit inside in terms of their bundle size - max. 26 cm outer diameter. The practical rollers are stackable, which enables efficient storage and saves valuable space. The reel is particularly useful when a cable spool of the CB 260 Cable Box has been used up. The reels can be changed effortlessly using the red push button. Compared to conventional plastic or cardboard packaging, the CB 260 reel offers a clean and durable solution. The cables are well protected and at the same time neatly stowed away. Another highlight of the roller is the quick and easy replacement of the cables or individual wires. The reel can be opened and closed quickly with a twist, which makes changing the cable bundle much easier and saves time. The CB 260 roller combines functionality, convenience and cleanliness, making it an indispensable accessory for any well-organised workshop or working environment.
